

Souissi Sirine

Software Engineer

Hammamet, Nabeul | sirinesouissi533@gmail.com | +216 55 797 433 | LinkedIn | Github

Education

ITBS Nabeul – *National Engineering Degree in Computer Science*

ISSAT Sousse – *National Diploma in Embedded Systems*

Professional Experience

End-of-Studies Internship – Full Stack Java / Angular Engineer – *Safran Tunisia* *Feb. 2025 – Jul. 2025*

- Digitalized the internship management process through a full-stack application using **Angular** (front-end) and **Java Spring Boot** (back-end).
- Developed and maintained **REST APIs**, integrated an AI model for automatic CV scoring, and collaborated with technical and functional teams.

Summer Internship – AI / Python Engineer – *Safran Tunisia* *Jun. – Aug. 2024*

- Developed an E-Procure application: automatic data extraction, spell checking, and budget forecasting.
- Designed an NLP pipeline and exposed REST APIs with Flask.
- Tested, validated, and documented the developed services.

End-of-Studies Internship – Full Stack Developer – *Madar Consulting* *Feb. – Jul. 2022*

- Intelligent road management application with Arduino boards.
- Front-end and back-end development, testing, and documentation.

Academic, Personal & Freelance Projects

- **Transfer and Excursion Management (MERN)** – *Freelance project*: Application for a car rental agency with transfer and excursion management, authentication, and online bookings.
- **Collaborative Task Management Application (Angular + Java Spring Boot)**: Interactive Kanban board with JWT authentication and WebSocket for real-time notifications.
- **Human Resources Management Platform (Angular + Spring Boot)**: Full-stack application for managing employees, leave requests, and performance reviews.
- **Medical Practice Management (MERN)**: Management of appointments, patients, and medical records.
- **Online Exam Management**: Web platform built with ASP.NET/C#.
- **Drowsiness Detection**: Real-time deep learning model (TensorFlow, OpenCV).

Technical Skills

Back-End	Java, Spring Boot, REST API, Swagger, Python, Flask, C#
Front-End	Angular, React.js, TypeScript, JavaScript, HTML5, CSS3
Databases	MySQL, MongoDB, Elasticsearch
DevOps & CI/CD	Git, GitHub, Docker, Jenkins, Kubernetes, GCP

Certifications

- MLOps with Vertex AI (Google Cloud)
- PCAP Python (Cisco/OpenEDG)
- Deep Learning (AWS)
- Cloud Engineer (Google)

Languages

- French: fluent
- English: fluent

Volunteer Activities

- **Tunisian Red Crescent – Nabeul**: Volunteer (2022–2023)
- **Red Crescent Club – Issatso**: Treasurer — Vice-President (2022)
